HOLIDAY INN QINGDAO

The SL+A Hotels team in Shanghai successfully met the impossible schedule to deliver yet another outstanding project. This project's success was based on the level of trust between Client, Design team and the IHG project management team; allowing us to showcase best efforts despite the impossible timeline.

The 262-room hotel opened its doors early 2014 to meet the Qingdao International Horticultural Exposition 2014, which was officially launched on April 25, 2014. If this is not enough of an achievement celebration, the hotel Management team of the Holiday Inn Qingdao Expo was proud to share with SLA the news that they have won the Golden Horse Award of China Hotel for 'The Most Potential Newly-Opened Hotel'.

Our Services:

- Interior Design Consultancy,
- Feasibility and Strategic Space Studies,
- Project Management,
- Environment as Brand: Brand Application to Interiors,
- Sustainability Advisers, based on USGBC's LEED Accreditation
- Architectural

Pre-Function Room

This Germanic, castle-style architecture hotel is located within the business and tourist resort center of the Laoshan District and situated next to the 2014 Qingdao International Horticultural Exposition with mountain views for a relaxing getaway. Our 'forest' concept interior complimenting its surrounding was well executed with the opportunity to use exotic wood veneers from France.

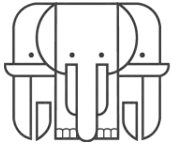

Our Client and IHG are very happy and complimentary of the passion and dedication the SLA team have put into this project to make what seem like an impossible feat becoming one of the more successfully executed project.

The Design Team Key Players

David Pipkin - Director
Betty Hsieh – Design Director
Jia Hong – Design Manager/Project Manager
Richmond Zhang – Senior Project Designer
Amy Zhou – Project Designer
Wang Qi Lei – Project Designer
Amelie Lemaitre – Senior FFE
David Pipkin and Edward Pang involved in key areas of the hotel design
